

UPGRADING THE FIRMWARE

The version of your GL900's firmware can be upgraded by rewriting the flash ROM on the pertinent circuit boards. You can upgrade the firmware by loading the update program to a USB memory device.

How to Upgrade the GL900 Flash ROM from the USB memory device

Preparations for the upgrade

Firmware :Mxxxa001.G90← Main Program file for GL900
:Mxxxa002.G90← Main Program file for GL900
:Mxxxa003.G90← Main Program file for GL900
:Mxxxa004.G90← Main Program file for GL900

- (1) Connect the AC adapter for the GL900.
- (2) Turn on the GL900.
- (3) Copy the two main program files to a USB memory device from the computer.
(Copy the two main program files to root directory of a USB memory. Do not copy them to any folder.)

How to upgrade

- (1) Insert the USB memory device containing the main upgrade program into the GL900's USB port.

- (2) Turn on the GL900 to automatically execute the upgrade program.
- (3) Wait until the display shown below appears or until the beeper sound stops.

Note:

Don't turn off the GL900 until this process is finished.

The following message will appear on the GL900 display in yellow characters when the upgrade is complete. Also the beeper will sound for 5 seconds.

"Please Turn Off the Power. I have locked up."

- (4) Turn off the power to the GL900 when the above message is displayed or when the beeper sound stops.
- (5) **Delete the two main program files from a USB memory device.**
This is to avoid upgrading the firmware by mistake.
